

## **Evangelism Report**

Joe Oden opened with a short devotion on the role prayer plays in empowering the proclamation of the gospel and the miraculous.

During our last evangelism commission meeting in February, we had 20 participants online and in person. We discussed strategies and practices that could serve the continuants of PCCNA.

Werner Nachtigal was present and gave an update on *Go Decade* and cast vision for the future. He made everyone aware of great resources they could access.

We had a representative from the *He Gets Us* campaign to offer this great resource and how to get local churches connected to this campaign.

Our main discussion comprised of working through how we could provide a conference that would serve the denominations and networks within PCCNA to enhance evangelism within the local church. There was a consensus that we needed to convene and present something to the executive committee that would serve to offer equipping geared to the local church in evangelism and outreach. The goal would be to serve the vast expression of the local church in reaching the lost through youth, children's, street, relational, power, and a many more forms of evangelism. Our next meeting is scheduled June 1, 2023 where we will come up with a soft outline to present to the PCCNA leadership.
