

## Prayer Commission Update

### PCCNA Aligned for Mission Conference

The Prayer Commission was very active during the Aligned for Mission conference. We met in our group together for a time of sharing and prayer where we discussed some of the prayer movements that PCCNA is supporting such as: M33, the Called Movement and the Finish Initiative. These movements are seeking to raise up leaders and missionaries, and to see the Great Commission fulfilled in greatest move of evangelism that the world has ever seen. As we pray for these initiatives we are Aligning with Mission, as much prayer is needed!

The Prayer Commission also discussed some prayer initiatives such as the Korean Prayer Project with Project Pray and the Adopt a Frontier People initiative with John Robb.

We prayed together and sought the Lord to ask Him how we as PCCNA can best align and partner with Him to further His Kingdom in North America and beyond. As we prayed and sought to hear from the Holy Spirit we formulated some prayer points that were used to lead corporate prayer in the evening meeting. Some of these were: to pray for a new generation of intercessors; for a movement of repentance and revival to awaken the church to go outward; for the Body of Christ to come together with one vision; for the grace to come out of our silos to see His kingdom come.

We also collected prayer requests after an evening meeting and had many to pray over, which we did together the next morning. We trust in God's goodness and grace to answer each request!

Update since Prayer Commission meeting:

Several initiatives were shared in our meeting as mentioned above, Project Pray and John Robb's Adopt a Frontier People.

Carol was able to participate in the Project Pray initiative and was a team leader for Memphis to host a Korean Prayer Team. It was a great success. 7 Korean ladies came and prayed for America and Memphis. It was a great experience.
